ORGANIZE A CANDLELIGHT VIGIL

A Peaceful & Powerful Way to Unite your Community

Canada Health Alliance in partnership with Vaccine Choice Canada, encourages all Canadians to gather in their communities to honour those who have lost their lives or were injured by the vaccines or mandates.

To organize your own memorial Candlelight Vigil, please email us at candlelightvigils@proton.me and let us know the date, time and location. We will create a poster for you and promote it on our website, as well as send you a toolbox on how to host your own vigil.

CANADIAN COVID CARE ALLIANCE EDUCATIONAL SERIES

Informed consent – It's your right. In Canada, it's the law. Since you're the one who ultimately has to bear the consequences of any medical intervention, it's your right to make an informed, free choice.

When it comes to COVID-19 vaccines, what should informed consent look like?

What you should be informed of:

- The nature of the treatment
- The expected benefits of the treatment
- The material risks of the treatment
- The material side effects of the treatment
- Alternative courses of action
- The likely consequences of not having the treatment

If you weren't provided with this information, if your decision was made as a result of pressure, and if you didn't receive the vaccine protocol that you agreed to, then what you experienced was NOT informed consent.

Canadians Who Got Mixed Vaccines May Not Be Seen As 'Fully Vaccinated' In Other Countries

The feds have promised to "work with the international community" to change this. 🇺🇸

CCCA has created a short 3 minute video about informed consent.

It's your right!

UNINFORMED CONSENT DOCUMENTARY

Interview with Documentary Creator, Todd Harris

TODD HARRIS

Creator of UNINFORMED CONSENT

Join us to meet Todd Harris, the Canadian filmmaker who created the ground-breaking documentary film Uninformed Consent. Vaccine Choice Canada is proud to be an executive producer of the film along with Odessa Orlewicz of Librti.com. The film provides an in depth look into the Covid-19 narrative, who's controlling it and how it's being used to inject an untested, new technology, into almost every person on the planet.

INSPIRATION

NON-VIOLENT RESISTANCE

Enough is Enough – We are Going Dutch

A message from Stand with Farmers

We are already experiencing the destructive consequences of the WEF Sustainable Development Goals (SDGs) in the form of inflation caused by attacking the energy industry with carbon tax, cancelled pipelines, coal plants shutdown and other harmful policies that already are making it hard for families to feed their children.

[July 23 - Watch Video](#)

We need to act now! If not us, then who? If not now, then when? Will you wait for the food failure or will you act now to prevent Canada from Sri Lanka's fate after those policies where forced on the people? Will you rise up and stand for farmers?
