Many people have gotten the details of the ***“Proposal for negotiating text of the WHOPandemic Agreement”*** mixed up with the 300+ proposed amendments to the International Health Regulations.

Contrary to what you may have heard, the ***“Proposal for negotiating text of the WHOPandemic Agreement”*** is NOT an attack on national sovereignty. It is NOT designed to take away your dignity, human rights and fundamental freedoms. It would NOT empower the WHO to impose mandates, lockdowns, travel restrictions or override your personal health decisions. Please investigate the details of the proposed amendments to the International Health Regulations at StopTheWHO.com.

The ***“Proposal for negotiating text of the WHO Pandemic Agreement”*** is NOT about your health. Essentially, it is a venture capital prospectus designed to redirect billions of dollars of public and private funds to dramatically expand the Pharmaceutical Hospital Emergency Industrial Complex (PHEIC) in low income nations so that they can have access to more drugs and jobs in order to poison their own people and profit from it.

It would set up a Framework Convention much like the Framework Convention for Climate Change, which would create an entirely new bureaucracy that would meet on a yearly basis to determine the details of the agreement without any input from you.

The “Pandemic Treaty” must be stopped at all costs.
